A BOOK REVIEW

L'énigme de la chambre 622

AN OVERVIEW OF THE BOOK

I've brought a very special book to share with you.

It's "L'énigme de la chambre 622", written by Joël Dicker and published in 2020 by Éditions de Fallois.

I read it during the Easter holiday. It's a mystery/crime novel.

ABOUT THE AUTHOR

Joel Dicker is a francophone Swiss writer who was born in Geneva in 1985. He studied Law at the University of Geneva and graduated in 2010 (that year I studied there, maybe I met him in the library or at the café, who knows!! ;))

In 2010 he won the Prix des écrivains genevois (Geneva Writers' Prize), a prize for unpublished manuscripts. In 2012, his second book *La vérité sur l'affaire Harry Quebert* won many prizes and became a best-seller.

BRIEF SUMMARY OF THE BOOK

A writer (Dicker himself) leaves his apartment in Geneva for some days of peace in a fancy hotel, but he discovers that a murder has happened in room 622 about a decade before. He started to investigate. From then on, the book deals with the events of the weeks preceding the homicide, as well as the general story surrounding the people involved both before and after the homicide. Most of the characters are employees of the same Swiss bank, where the presidency has to be assigned to the best candidate on the night of the homicide. I'll stop there, I don't want to spoil it for you.
